May 4th — 97

1491 Orange Grove Ave Riverside

My dear Millie

It is such a long time since I heard from you that I am very anxious. I try to think "no news is good news" but it is very unsatisfactory. I should have written to you long ago, but put it off from day to day, not really from inability to do it, though I have not been quite as well as usual. It has not been a pleasant spring, too cool & cloudy. A fine season for crops of oats the papers say, for once California is green as growing grass & grain & young foliage can make it

with much love to you all. I have not heard from Sam for a long time & am quite anxious to hear from him before going to see him. Love to all. Yours

the cool shady weather is particularly favorable for insect pests, the roses are badly damaged by them. I have sent you a small box, such as they are. The last of the Cranes are being shipped now. Since Edgar is out of the business, there is no chance of sending a box, or how & then. I hope you have been able to get good ones. Lelia Keenan has been having Grippe & is quite poorly. She was rather better at last accounts & hoped to be able to come to Riverside soon. She has set 20th inst to start home & expects to go alone via C. P. R. R. stoping to visit friends on the way. We think it is taking chances with the little strength she

has. She is so dreadfully homesick that she dont improve in health as she might otherwise do.
A few lines from Eliza Kitchen yesterday told of Theron's arrival I think he expects to stay all Summer. Cards announcing Arthur Warren's Marriage came from Baltimore. It was all news to me. Do you know anything of the Bride? I will try & write to Mrs Warren very soon.
It is a year today since Edgar & Minnie left for Europe. The past year seems like a far off time of deep shadows.
Augusta Capps' health is somewhat better, but she does

Robinson Robinson leaves the end of the month. She is getting on better the first July year I hope some time before gets written again strength: the Dr does not encourage her that she will do so for some time to come Hattie is much the same. She is never strong.

You will be surprised to hear that I spent Fifteen wks in Los Angeles. Mrs Conrad brother has lately come from the East to live in L.A. & she went to visit them Mrs Linley Morgan is Spending the winter there & insisted she to stay with her (She is one of the "Buck woods" folks) It was all very new & interesting to me, but I was not in a Spirit to enjoy it. It rather over -taxed my strength
