Judge Albion W. Tourgee

Mayville N.Y.

Dear Sir

I again send you herewith another of my crude hand efforts in behalf of the colored people of this Christian nation — written with the hope that it may attract the attention of some man or woman with ability and influence, who may be induced to take up the cause of that oppressed people.

While writing permit me to congratulate you on receiving the appointment from the President reported in the papers. If true the position is one that will be agreeable and profitable.

Yours Truly
