WYCKOFF, SEAMANS & BENEDICT.

NEW YORK,

327 BROADWAY.

May 27, 1897.

Hon. A. W. Tourgee,
Mayville, N. Y.

Dear Sir:

We have received from our Buffalo office your letter of the 25th, regarding the purchase of a machine for your use as United States Consul at Bordeaux. We would say in reply that the price of our machines in Europe is practically the same as here, with the exception that the duty and custom house charges are added to our prices, where duty is collected. You can, as you state, purchase a machine from our local office in Paris (18 rue de la Banque), or you can obtain one through their local dealer at Bordeaux by corresponding with Paris on the subject. We have extensive connections all through Europe, and any supplies desired or repairs required are very easily obtained.

It is the custom of the Government officials at Washington to supply typewriters for the use of the foreign consuls. We ship a great many to different points, and we think if, when you get located, you make an official requisition for a Remington Typewriter, your request will probably be granted.

Hoping to have the pleasure of supplying you sooner or later

with one of our new model #6 or #7 machines, we remain,

Yours very truly,

WYCKOFF, BEAMANS & BENEDICT.
