Dear Emma

Your last sweet letter has come - We are so glad it will arrive in time - I just knew you would meet Mrs. Crais in your life as you have and all things in the past - with love to the present - even though your head is breaking - I pity you for it - Have the dear little ones all the love you wish and more than I could - and all such little ones to you - Mrs. Lee [illegible]

At the table at dinner we had
some time we would be made —
as well as some beef it was time
to die — I cannot say it was good
I am addicted — I would have
been easier — Perhaps not for one
must have such sorrow as mine — We
are glad you are coming home
— as I did not know but you
might stay abroad for a while
Yet I do see you are anxious —
to get — sorrow for the ear
of his friend and anew at the
Indirect hate in which his
Name as Consul has been received
He never said any more for —
When I say since he did not keep his
promise made it difficult for me
and he thinks if he could have re-
turned it would at this time all
this trouble me. Mr North his brother
could from been arrested — I don't
know — Mrs. Fiske thinks well
of Mr. King and says no one has
done more for us than he has in
way of telling us it get matters
started but it see him and
speak a word in time of need
We will see how he does yet
it is. I really think the government
was proud on the President and
he had to make it when he did

I certainly hope the Hospital will be in no hurry to take possession until we give you all the comfort and rest we can. We now expect to go to Ohio about July 15th unless the weather gets so hot before that - you know about the same - though I can see that he gradually grows weaker but it is so slow I only mark it by thinking of the things he could do a year ago that I do for him now. He suffers greatly with stricture of the urea - and the retention of urine is almost always filled with blood & it is so hard to see him suffer as he does at times and powerless to relieve him - He keeps cheerful though I think he is discouraged about ever being any better - I still have hopes as the lungs have cleared up that the throat trouble may be better in time. - - How dear I have not written any thing I intended to write when I began - I cannot write the things that are in my heart to say to you - as I will only say you are very dear to me and I hope you will take good care of yourself - You must excuse this mixed up rest - With love to Lottie and a heart full for you I am

Your friend

Bessie Tann
