My dear Dannie,

I have a letter begun several days ago.— But have not had time to finish.— and I am writing this that you may not get anxious if your usual letter is delayed.—

We left Strath at 4.30 this afternoon after a most charming sojourn of 10 days in "Lorna Doone" land.— We have been so busy going to see things and being entertained at teas and dinners by the hospitable friends.— Dr. Rowe has more or less connected with the Misses Impey.— And the time has flown on leaden wings.

has been an experience most
delightful to recall all our lives.
This morning we went to call
on a couple in a farm house
where the family had lived, always
the oldest son for more than 200
years. And the house and furniture
was practically the same as then.
All the cooking is done by the open
fire, with the same utensils,
used when it was first built.
We have seen so much that
was old, that we feel thoroughly
imbued with the old time spirit
We think to stay in Bristol until
Wednesday morning then go on
to Arnside in Westmorland to visit
Mrs Shepard. It is a stocking over here
for Albion's sake. We studied up old
Bristol & Chippenham before coming
down to Lea. We will be constantly work-
ing tomorrow so we go about the city
We are in the quaint old Regent Temple
Hotel here. 2 pm writing in the office room
where we have just taken our tea, toast
and jam. More anon.
