come - In case you do come at that time you better take cab and come to the house - I think as Sadie is not coming with you we had better wait till you come to decide about what things to send from your home there - It makes me sick to think of the ~~destruction~~ spoiling of all your beautiful ~~beautiful~~ things - I do not wonder you are heart sick over it - People have so little regard for other peoples things - that is some people. - There are a number of things I might be doing here now towards getting the house settled but I thought I better let every thing rest till you come and we talk matters over - writing is unsatisfactory - I have a very good colored girl - that is, she is a good cook but does not care to do any thing but cook and laundry work - In that case if I keep her I must have a second girl - I have to give her $15 - per month - The colored help here have all struck for higher wages and less work - I wish I could get a good white woman from the North - Do you know of any one? - Do not come till you feel able much as I want to see you

Affectionally Bessie
