Shelves for " "
Curtains of any kind
Small tables

Dear Emma - I have made out this list - rather hurriedly - for know what is coming from Bordeaux and I may have put in things that we may not need - I do not see any parlor furniture on the list - for sent - and from at Mayville I remember as handsome - though it may need re-covering by this time - Save any and all carpets - They will make good woven rugs if nothing else - I have only one pair of Portiers and we really need three - four big chiffonier would be a great comfort in the upper hall - and from mantle clock would fit the mantle in the Reception hall - for can do as for chose about sending a bed room set - I have one of Mrs. Patterson's which I can keep for the winter but if I were for I would not dispose of them as for might make them available later here. A couch would be comfortable for for in for room — This is about all I think of now - for will probably not dispose of for things before for come here and for can then see what more is needed - Chairs are much needed and they cost - a good deal even for us —
