Dear Madam:-

Have your kind favor of the 1st. Shall be very sorry indeed not to furnish these markers for you myself and believe I now know about what you want and that I can furnish them at as reasonable a figure as any one. Will cut you the markers as I think you want them and ship them with the monument for \$15.00 each, in granite that will exactly correspond with that used in the monument and in first classwork. Hope, if you haven't already ordered them of the local dealer that you will send me the order and assure you that it shall have very best attention,

Very truly yours,

Did. W. R. K. / P.
